## YOUR CITY CENTRE IRONMONGER

## Mechanical Digital Locks

The BL2001 digital door lock is a fully mechanical push button coded lock. The ergonomic design and simple operating procedure ensures access for authorised personnel only. Automatic locking until correct code is entered, anti-thrust latch plus over 8,000 different combinations to choose from provide greater security.

### Features

- Patented load plate design eliminates code cracking attempts.
- Cycle tested to 50,000 operations.
- 60mm tubular latch supplied as standard (50 & 70mm available).
- Optional holdback function.
- Non-handed keypad-easily reversible on site.
- Early clear function.
- Over 8000 code combinations available.

Available from stock. Also, available for gates, with key override, marine grade and to suit Exidor panic hardware.

## Stock Management

As well as our day to day delivery and trade counter service we also offer a stock management service.

This service comes in different forms such as loan-stock, consignment stock or something as simple as our representative taking stock then replacing products that have been used.

This service is flexible and designed to suit each individual customers requirements.

Should you wish to discuss this please contact your sales representative or Peter Clark for more information.

**Don't forget our FREE delivery service  
throughout Hull, East Riding of Yorkshire  
and North Lincolnshire.**

**Please contact our sales department for more  
information.**

## QUICK CHANGE BAR CLAMPS & ACCESSORIES

### Bar Clamps

Can be converted from a clamp to spreader in seconds, with a clamping hold load of 136kg. The lockable swivel jaw enables uneven surfaces to be clamped and it is fitted with square XP-style protective pads to protect the work surface from damage.

### Clamp Coupler

Connects the bars of two Quick-Grip® medium-duty one-handed bar clamps to create one longer bar clamp. Increasing the length to manage larger projects.

### Edge Clamp Accessory

Converts a Quick-Grip® medium-duty one-handed bar clamp into an edge clamp for easy clamping of trim and edging. This easy-to-use combination is ideal for holding trim and edging in place during glue-ups.

### Hold Down Jig

Turns your Quick-Grip® one-handed bar clamp into a table clamp to securely hold your workpiece while sawing, cutting or performing other tasks.

The Irwin® Quick-Grip® Wide Pads change your standard clamp pads to wide pads for wider distribution of clamping pressure. The pads are double the width of standard pads.

### Deck Clamp Accessory Kit

Turns your medium-duty one-handed bar clamp into a deck clamp for easy, accurate deck building. The converted one-handed bar clamp is designed for lining up, spacing and holding boards in place.

### Corner Clamp Pads

Turns heavy-duty and medium-duty one-handed bar clamps into a corner clamp. This easy-to-use clamp and accessory combination is ideal for clamping 90° angles for drawers, frames and many other items.

### Clamp Stand

Can be coupled with heavy-duty or medium-duty one-handed bar clamps when level clamping is required. The clamp stand is ideal for parallel clamping applications such as frames, caseworks and drawers.
