

YOUR CITY CENTRE IRONMONGER

LED LANTERNS

The **LED Mini Camping Lantern** uses high power COB LEDs to provide a safe and portable source of light. With two different light modes, High with 150 Lumen output and Low with 50 Lumen output. It has a flashing green LED under the switch, which makes it easy to locate the lantern in the dark. With an impact resistant case that has an integrated folding hanging/carry handle. Ideal for camping or fishing trips, and for use during power failures and roadside emergencies.

The **LED Elite Camping Lantern** uses high power COB LEDs to provide a safe and portable source of light. With a useful dimmer switch that allows you to set your own level of illumination, from a low-level reading light, to an ultra-bright flood of light. With an impact resistant case that has an integrated folding hanging/carry handle. Ideal for camping or fishing trips, and for use during power failures and roadside emergencies.

Our range of **GRIPPLE** products is based on the standard hanger and is used in various applications such as:

- Ducting
- Cable Containment
- Lighting
- Piping
- False Ceilings
- Signage

Up to six times faster to install than traditional hanging systems it is versatile and simple to use. The range is available from stock with the following end fixings:

Loop

Hanger using a non-invasive, simple, choke knot technique.

Stud

Supplied with Wedge Anchors (M6 from stock)

Snap Hook

Quick and easy attachment to cable basket, purlin clip & light fittings

The **GRIPPLE** Universal Clamp is engineered for hanging all types of pipework and ductwork within mechanical and plumbing services.

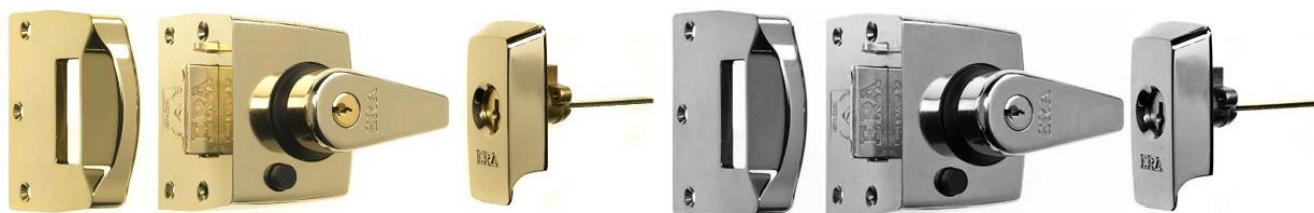

Suitable for all pipe sizes from 15mm to 104mm OD replacing more than 11 different pipe ring sizes.

A retractable, removable sleeve is pre-fitted to the wire rope to prevent galvanic corrosion and is insulated against vibration.

High Security Nightlatches

ERA 1830 (40mm) & 1930 (60mm) Auto Deadlocking Nightlatch

The ERA BS High Security Nightlatches feature an integral cylinder pull which protects the cylinder from being drilled, and comes with a 20mm bolt throw for increased security and strength. The cylinder of the nightlatches also have over 30,000 cut key variations.

The nightlatches are ideally suited for glass panelled wooden doors, as they have been designed with an ergonomic internal lockable handle offering added security against forced entry.

The main lock bolt of the nightlatch “automatically” deadlocks, making the use of a credit card to force entry virtually impossible. The bolt can also be held in the withdrawn position yet only with the use of the snib feature.

Finally, the BS 1830 & 1930 High Security Nightlatch conforms to British Standard 3621:2004 (BS EN 12209), and meets the tough criteria laid down by the insurance companies and police.

Features

- This product is ideal for solid and glass panelled doors.
- An ergonomic internal locking handle which offers added security against forced entry.
- Comes with a 20mm bolt throw for greater security and strength
- Conforms to British Standard 3621:2004 (BS EN 12209)
- The inside handle can be deadlocked by an anti-clockwise turn of the key from the inside so securing the lock against forced entry.
- The bolt can be held in the withdrawn position (only) with the use of the snib feature.

Available in the following finishes

- Brass effect body and polished brass cylinder.
- Satin chrome body and satin chrome cylinder.
- Polished chrome body and polished chrome cylinder.

Craftsmen Window Fittings

Our range of Craftsmen window fittings create an elegant and stylish window due to the classic design with contemporary twist.

The heavyweight fittings, made from a solid die cast zinc construction, have a sturdy feel.

Casement stays and fasteners are available in both locking and non-locking and four different finishes;

White, chrome, satin and gold.

Also supplied with colour matching screws.

Vacuum Based Vice

The Faithfull Vacuum Based Vice is a versatile, multi-position vice, manufactured from die-cast aluminium with hardened steel jaws.

The vice features a rotating and tilting head allowing you to manoeuvre your workpiece to the most accessible angle and then secure it into place by rotating the base locking collar. The steel jaws have both vertical and horizontal V-Grooves, making them ideal for holding rods or circular objects, and are supplied with soft grip rubber jaw covers for use on delicate materials.

The vice can be quickly attached to most flat, smooth surfaces using its powerful vacuum suction base, simply place the vice on the mounting surface and pull down the locking lever to fix the vice firmly in place.

Jaw Capacity: 70mm (2.3/4in).

Multi Purpose Swivel Base Vice

The Faithfull FAIVMULTI360 is a truly versatile multi vice, which is ideal for use by both mechanics and engineers. The body and sliding jaw are constructed from fine grey cast iron and are machined to provide a smooth and reliable clamping action. The jaws, handle and main screw assembly are made from hardened steel.

This strong durable vice offers many features including a four point bench mounting 360° swivel base and an ingenious rotating jaw head that allows the selection of either a standard parallel serrated jaw, or pipe jaws with an integral V-jaw assembly depending on the work in hand. The jaw head can be pivoted 180° either side of vertical and locked in position, meaning it is able to provide the perfect working angle for any application.

To avoid over-loading, the vice is fitted with a fused steel main handle.

Standard Jaw Capacities:

Width: 125mm maximum. Opening: 124mm.

Throat depth: 70mm.

Pipe clamping Jaw capacities:

Jaw opening: 124mm. Maximum pipe diameter: 125mm.

Throat depth: 70mm.

Anvil size: 75 x 60mm.

All offers and promotions begin Monday 3rd July 2017 and end Saturday 30th September 2017 or whilst stocks last. All prices are exclusive of VAT
